'The convict is believed to be the possessor of graver secrets of the Ring than any that have yet been made public, and his pardon may, therefore, have been necessary rather to purchase his silence than to obtain from him the worthless letter which he is reported to have signed. This is the only reasonable explanation I have heard of the matter, for no one believes Simon Cameron and his political friends to be fools, and no one not devoid of common sense could have failed to have foreseen the reaction, even among Hartranft's friends, which this last desperate move of the Ring has produced.

To partially neutralize the heavy majorities in the counties named, the Democrats have always been very strong in Berks, Clearfield, Columbia, Greene, Lehigh, Luzerne, Monroe, Northampton, Schuylkill, Westmoreland, and York. Given a fair estimate of the majorities in the twentyfive counties enumerated, and almost any Philadelphia politician can tell very nearly what the result in the State will be. I have visited the majority of the strong Republican counties, and met intelligent gentlemen from the others, and I have assurances that almost none of them will give Hartranft the full strength of the Republican vote. In some of them it will be reduced 30 per cent or more; in others 25, and in others 20.
